

Executive Profile

G.V.Kumar

Founder & President

With nearly two decades of IT and telecommunications experience, Mr. Kumar is the Founder and President of XIUS. He successfully established XIUS as a cutting-edge telecom technology company and guided the company in developing unique products to solve the business problems of telecom operators unattended by incumbent telecom solution providers.

Mr. Kumar is credited with the ideation and commercial development of a number of patent pending wireless technologies and services. The Intellectual Property Rights (IPR) strategy focuses the company in the significant emerging field of Intelligent Networks, Convergent Solutions, Mass Subscriber Customization, Wireless Roaming and Wireless OSS.

Prior to his work at XIUS, Mr. Kumar began his career with the Godrej Group of India, and last served as CEO of Godrej Telecom Ltd. – the telecom arm of the Godrej Group.

Mr. Kumar graduated from Regional Engineering College, Bhopal with a specialization in electrical engineering and received an MBA from XIMB.
