

XIUS cNaaS Platform Now Live in USA Region

We're thrilled to share that our XIUS cNaaS platform is now fully operational in the USA region, supporting next-gen services with best-in-class scalability, security, and performance.

XIUS cNaaS: Revolutionising Core Networks for the Future

XIUS' Core-Network-as-a-Service (cNaaS) is a next-generation 5G-ready mobile core network solution for mobile, broadband, unified communication, and fixed wireless providers. It simplifies network complexity and accelerates innovation, enabling easy launch, management, and enhancement of mobile services.

Why partners choose XIUS cNaaS:

Secure

Observability

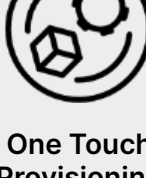

Predictability

Manageability

Rapid Product Creation

One Touch Provisioning

Dynamic Scalability

Secure Assurance

New Role Announcement

Arturo Sanchez has been transitioned to **Global Sales Head**. Brings 22+ years of experience across Telecom and IT spaces.

Arturo's Key Contributions & Achievements

Arturo has been a key driving force behind XIUS's global expansion strategy, notably leading the successful launch and growth of our Core Network-as-a-Service (cNaaS) offering across Latin America. His efforts were instrumental in securing strategic partnerships, winning major MVNE and MVNO projects, and positioning XIUS as a trusted core network provider in competitive markets.

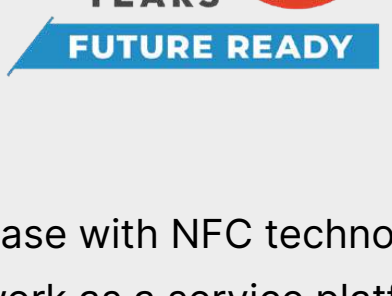

Arturo's Vision and Direction for the Role

Arturo envisions expanding XIUS's market share by delivering agile, cloud-native core solutions to mobile, broadband, and private network operators, while building high-performing regional sales teams and strengthening brand presence through strategic marketing, events, and stakeholder engagement.

XIUS Turns 25: Connected to Ambition, Fueled by Innovation

This year marks two and a half decades of powering global telecom through relentless innovation, and deep technological expertise.

Thank you for helping us stay "Connected To Ambition"

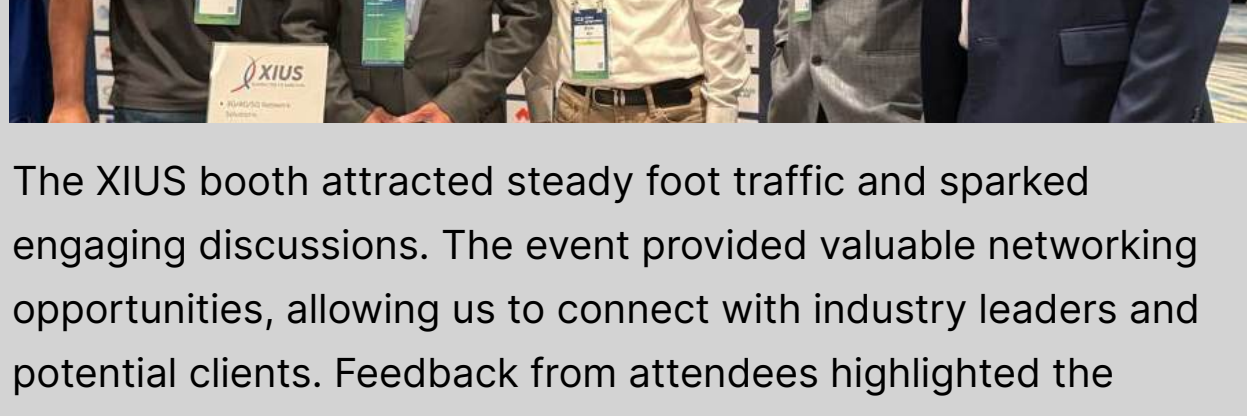

A Legacy Built On Innovation

- Pioneer of prepaid roaming in India
- Making cross-tech roaming a reality
- Revolutionising mobile content purchase with NFC technology
- Built the 1st multi-operator core network as a service platform
- Unlocking 3G & 4G network slicing
- Simplifying mobile recharge across borders in Latin America
- Hosted & Managed the 1st prepaid charging platform in the Americas
- Hosted Steering of Roaming Platform as a service
- Created a real-time interconnected billing platform
- Unveiled a Core Network Platform that drives business models across industries

Connecting With Industry Leaders, From Denver to Barcelona

CCA Denver 2025
14th - 16th April

The XIUS booth attracted steady foot traffic and sparked engaging discussions. The event provided valuable networking opportunities, allowing us to connect with industry leaders and potential clients. Feedback from attendees highlighted the relevance of our offerings in enhancing service quality and expanding network coverage.

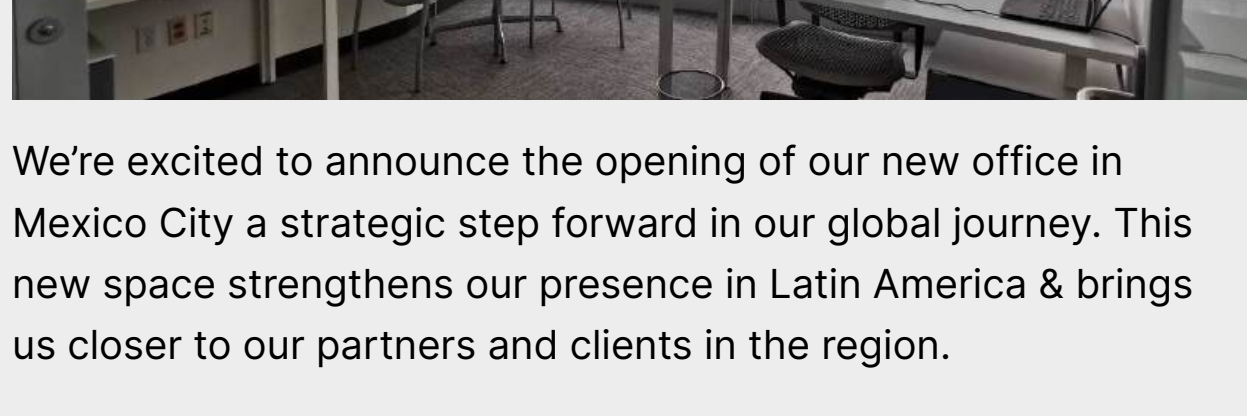

MWC Barcelona 2025
3rd - 6th March

The event facilitated productive discussions around emerging trends like 5G and AI, while our team showcased innovative solutions tailored to the future of telecom. Key takeaways included valuable insights on industry trends and promising business leads.

MWC significantly boosted our brand visibility and helped strengthen existing relationships, marking another successful participation for XIUS in one of the world's premier tech conferences.

A New Chapter Begins in Mexico

We're excited to announce the opening of our new office in Mexico City a strategic step forward in our global journey. This new space strengthens our presence in Latin America & brings us closer to our partners and clients in the region.

XIUS S. de R.L. de C.V.
Prolongación Paseo de la Reforma 1015,
Col. Santa Fe, Álvaro Obregón,
Ciudad de México 01376, Piso 1

We look forward to creating new opportunities and deeper connections from our new home.
