Making Payments Easier, Faster, & Secure

In today's fast-paced digital ecosystem, payment flexibility and reliability define customer experience. XIUS Payment Manager empowers telecom operators and enterprises to deliver seamless, secure, and scalable mobile payment solutions across channels and geographies. Built on a robust, real-time architecture, Payment Manager supports electronic top-ups, fund transfers, voucher management, and multi-currency transactions — all from a single, unified platform. With 99.99% uptime and proven scalability, it processes over 7 billion transactions annually, serving 25+ million subscribers worldwide

The platform simplifies distribution management, automates settlements, and enables on-the-fly dealer onboarding, ensuring greater control and visibility for operators. With its built-in loyalty, rewards, and geo-fencing capabilities, XIUS Payment Manager allows businesses to engage customers dynamically and drive higher revenue.

Promotions & Loyalty: Enables targeted promotions and loyalty programs for subscriber differentiation.

Settlements & Commissions: Automates settlements and commission management across the distribution network.

International Recharge: Supports global prepaid top-ups with international recharge capabilities.

Multi-Channel Access: Offers versatile subscriber touchpoints — NFC, USSD, SMS, IVR, WAP, ATM, and web.

Peer-to-Peer Transfers: Facilitates peer-to-peer fund transfers, unlocking new distribution channels.

Digital Vouchers: Delivers secure digital vouchers and top-up PINs across multiple points of sale.

Security Compliance: Ensures trusted integrations through ISO 8583-compliant interfaces.

Seamless Integration: Integrates effortlessly with retail systems, payment gateways, financial services, and billing platforms.

Fully compliant with ISO standards and built for telecom-grade resilience, Payment Manager is not just a payment system — it's a complete ecosystem enabler. Whether supporting domestic or international corridors, it ensures every transaction is fast, accurate, and secure.

XIUS Payment Manager — powering digital payments with trust, innovation, and agility.

Leadership Spotlight

Alexandre Marques

Head of Project Management

With over 25 years of global experience in Program and Project Management, Alexandre Marques leads the XIUS PMO with a sharp focus on operational excellence, delivery precision, and customer satisfaction.

Alex's expertise spans scope and schedule management, resource planning, and executive relationship management, supported by a strong foundation in telecom integration, business process improvement, and large-scale mergers and acquisitions.

His career includes leadership roles at Amdocs, CAS/Wipro, and Microsoft, where he worked with some of the world's top telecom providers — including AT&T, T-Mobile, TELMEX, Claro, TIM, and Movilnet — across 10 countries in North and Latin America.

Holding an MBA from Fundação Getulio Vargas (FGV) and a bachelor's degree in Information Technology from FATEC (Brazil), Alex is also a certified PMP® professional by PMI. His leadership at XIUS is marked by a strong emphasis on mentorship, cross-functional collaboration, and leveraging AI-driven project management to enhance delivery excellence globally.

Celebrating A Monumental Journey

This year marks a proud milestone for XIUS — 25 years of innovation, collaboration, and excellence. From our beginnings as a telecom solutions provider to becoming a trusted global partner for core network, BSS, and managed services, our journey has been defined by technology, trust, and transformation.

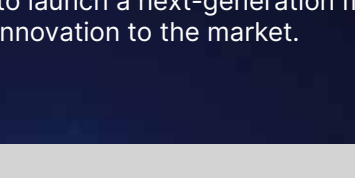

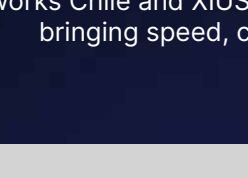

Across 200+ deployments in 5 continents, XIUS has consistently pushed the boundaries of telecom innovation, empowering operators and enterprises to scale smarter, innovate faster, and connect ambition to achievement.

As we celebrate this Silver Jubilee, we extend heartfelt gratitude to our employees, partners, and customers who have been part of this journey. Your support and collaboration have been the driving force behind every milestone we've achieved.

Here's to 25 years of connecting the world — and to building an even more connected future together.

Forging New Partnerships In South America

Powering Connectivity in Chile

HoldCo Networks Chile and XIUS join forces to launch a next-generation mobile core, bringing speed, control, and innovation to the market.

We're proud to announce our latest global milestone — a strategic partnership with HoldCo Networks Chile to launch their next-generation mobile core network.

This collaboration marks our very first project in Chile and represents a significant step in strengthening our presence across Latin America. Together with HoldCo Networks, we've built a cloud-native, carrier-grade platform designed to deliver faster, smarter, and more secure connectivity for the digital economy.

The XIUS-powered core network offers flexibility, reliability, and scalability — with support for 4G, VoLTE, and 5G services, enhanced data security, and automated failover for uninterrupted performance. It enables HoldCo Networks to deliver exceptional service quality, accelerate time-to-market, and lay a strong foundation for the next wave of telecom innovation, including IoT and enterprise-grade services.

With over 25 years of telecom expertise and 200+ global deployments, we're excited to partner with HoldCo Networks in shaping Chile's digital future. This partnership is a testament to our shared vision — making innovation more accessible, connectivity more resilient, and growth more achievable.

Here's to building stronger networks, together.
